

## ASSET MANAGEMENT POLICY

### MISSION

'To be the industry leading and most reliable supplier and operator of on-track machines across the UK rail network'

### PEOPLE

SB Rail will support and develop all staff members by promoting an Asset Management philosophy throughout the business. We will demonstrate a flexible and appropriate attitude to the nature and scale of the organisation, our clients and operating environments.

### GOVERNANCE

A key aspect of our asset management activities will be to ensure that our customers and stakeholders are foremost in the stewardship of both SB Rail owned assets and those maintained for our clients, by meeting all applicable, statutory & regulatory industry policies and standards, as well as the needs of each of our stakeholder groups:

- Our clients
- Our people
- JV Parent Companies (Swietelsky Baugesellschaft m.b.H and Babcock International Group)
- End users of the assets we manage and/or work on (Network Rail & HS1)

### STRATEGY

Our Asset Management Strategy Drivers are:

- 1 Asset Performance
- 2 Works delivery
- 3 Asset Management Capability
- 4 Continual Improvement

### CONTINUAL IMPROVEMENT

SB Rail will continually look for ways to improve our Asset Management System and Processes to drive high performance and efficiencies, delivering greater value for our business and stakeholders.

Craig Goldie  
Swietelsky Baugesellschaft m.b.H.

Colin Deuchars  
Babcock International Group
